Interview with the Principal — Ms. Kong Pik-chi

Student Reporters: 5B Lam Yu Ki & 5B Yu Man Ching Anthony

Q: Three months have passed. Do you enjoy working at YLPSS?

A: Yes, I really enjoy working at YLPSS. Initially, I was worried about the transition, but the students are very friendly. Every day, I greet them at the entrance, and their politeness makes me happy. The staff have also been supportive, helping me adapt to the new environment. One challenge I have is the distance. It takes me over an hour to get to the school. I think I need some time to adapt to this.

Q: Were there any subjects that particularly interested you when you were a student?

A: Yes, my favourite subject has always been biology. In secondary school, I found it fascinating to learn about how the body works, how the heart pumps blood, and how blood types interact with each other. For instance, type O blood can be donated to any other blood types, while type A blood cannot be donated to type O blood. I found it very interesting, so I decided to major in biology at university.

Q: As the Principal, could you please share with us a significant challenge you once faced and how you overcame it?

A: One significant challenge was the COVID-19 pandemic. We had to make crucial decisions about student attendance and online learning. There were concerns about resuming face-to-face lessons and conducting exams. Thanks to the collaboration among our teachers, we managed to overcome these challenges together and returned to normalcy.

Q: What's your vision for our school over the next five years? How do you plan to achieve it?

A: I want my students to 'Love to Learn, Learn to Love'. It is important for them to be curious and academically engaged, while also developing personally. I aim to promote both academic performance and personal development, fostering a respectful and considerate school environment.

Student Reporters: Thank you for taking the time for this interview.

Principal Kong: It's my pleasure. Thank you very much!

Edutainment@YLPSS – Learning Experience Day

The Edutainment@YLPSS – Learning Experience Day was successfully held on 6th December, 2024. A total of eight schools took part in the event, with approximately 320 students engaging in various activities designed to offer a glimpse into secondary school life. The event provided an excellent opportunity for students to immerse themselves in the vibrant academic environment of Yuen Long Public Secondary School.

On the Learning Experience Day, students participated in a variety of engaging activities. They attended workshops on Mathematics, Science, and English, where they were able to experience hands-on learning and interactive lessons. Additionally, specialized sessions on ICT, Chemistry and Biology allowed students to explore new technologies and scientific concepts in a fun and informative way.

Campus tours were also a highlight of the day. Students had a chance to learn about the school's history and facilities. The tours included visits to the Visual Arts (VA) Room, the Design & Technology (D&T) Room, as well as the Home Economics (HE) Room, providing a comprehensive overview of the diverse learning programs offered at our school.

Secondary One Admission Information Day 2024

Our Information Day held on 14 December 2024 showcased YLPSS through engaging presentations by the Principal, students, and alumni. This event highlighted our school's philosophy, academic achievements, and extracurricular activities.

The day began with an address from our Principal, who shared the school's educational philosophy, emphasizing our commitment to a supportive learning environment. Following this, students shared their experiences, showcasing our academic and counseling support. They also shared their experiences in subjects like Chinese, English, Mathematics, and STEAM, as well as their involvement in uniform groups and sports. The presentations concluded with inspiring alumni testimonials, highlighting the strong community ties that enhance success among students.

In addition to the presentations, we organized various engaging activities, including academic exhibition booths, uniform group exhibits, a sports booth, laboratory tours, STEAM exhibitions, and a visit to the School History Gallery. These activities provided attendees with hands-on experiences and deeper insights into our school community.

We look forward to welcoming our new students and supporting them in their educational journeys!

Kindness Day: A Celebration of Compassion and Self-Care

To foster a culture of kindness among students and staff at YLPSS, the Counselling and Guidance Team, the Reading Promotion Team and the Parents-Teachers Association (PTA) jointly organized the Kindness Day on 29 November 2024. This special day encouraged everyone to be kind to themselves and others while highlighting the importance of mental health.

Students began the day at the school entrance, where they enjoyed the 'Morning Snack Bar@YLPSS' offering free breakfast and snacks. This initiative not only nourished their bodies, but also fostered a sense of community as students shared a meal together. As they entered the school, students received a self-help booklet which contained positive messages and practical tips for managing stress, which helped to spread a culture of mindfulness.

Students also had the opportunity to dedicate songs to their teachers and peers in the 'Song Dedication@YLPSS' activity. This allowed them to share positive messages through music, celebrating friendship and encouraging each other in a creative way.

A book fair featuring English and Chinese books that shared uplifting messages was held in the library, providing students with inspiring stories and further promoting a mindset of kindness and resilience.

At lunchtime, the covered playground was transformed into a space of fun with game booths. Thanks to our dedicated parent volunteers from the Parents-Teachers Association, a popcorn stand was set up, adding to the festive spirit of the day.

During the Guided Activity Period in the afternoon, all S.2 students had a Zentangle trial lesson to explore this relaxing art form. This creative activity encouraged mindfulness and self-expression, while promoting a sense of calm.

Another highlight of the Kindness Day was the Life Education Talk entitled 'Embrace the Symphony of Life'. The stories of animals with disabilities overcoming obstacles served as reminders that there are always alternatives when life becomes difficult. Students had a delightful experience interacting with the Dog Ambassador.

Together, let's make kindness an integral part of our school culture!

We were honoured to have Mr. Chan Ki as the Guest of Honour, adding prestige to the event with his presence. The Fun Fit Relay, a new event, was held to further promote fitness, teamwork, and community spirit among alumni, teachers, and students. The Swimming Gala was a testament to the talent and dedication of all participants, with commendable sportsmanship displayed throughout the day. Fun Fit Friday - Let's Go Jogging

The Fun Fit Friday event "Let's Go Jogging" is held regularly on Fridays. It offers a refreshing opportunity for everyone to engage in physical activity after school. Taking place outside and around the campus, this event brings together teachers, staff, social workers and students for a rejuvenating jog in a familiar and scenic setting. By coming together outside school hours, participants demonstrate a shared dedication to maintaining a healthy lifestyle and building relationships beyond the traditional academic setting. We extend our sincere appreciation to all participants for their enthusiastic engagement and positive energy during "Let's Go Jogging". The active involvement and commitment to well-being have contributed to making this event an impactful experience for our school community.

Learning and Teaching Expo 2024

After participating in the IT Innovation Lab in Schools (IT-Lab) Programme, our students benefited from the information technology-related extra-curricular activities funded by the programme. To showcase students' achievements, the Digital Policy Office (DPO) invited our school to take part in the Learning and Teaching Expo 2024. This marked our school's third year as an exhibitor at the Expo.

A basic and standard unit in the form of a 3D printed cube was drawn using SketchUp and developed into various components and structures in our school. Students, using the printed components and structures or designing their own, learned to develop design thinking, robotic programming, and problem-solving skills. The Expo provided an exceptional opportunity for them to share their experiences and achievements in IT learning.

Blood Donation Day

Senior form students who met the age and health criteria were invited to join the Blood Donation Day on 28 November 2024, which aimed to highlight the need for blood donations and encourage students to contribute to this life-saving cause. The blood transfusion centre also arranged an exhibition vehicle for the campus blood drive, allowing students to have a deeper understanding of blood donation and clearing up misconceptions about blood donation.

Staff Development Day

Our school hosted the first Staff Development Day on 30 September 2024. The event featured a series of workshops and presentations designed to enhance our teachers' professional skills and knowledge.

The morning session commenced with a workshop on blended learning and generative AI for education, information, media, and AI literacy. Conducted by Mr. Man, the Principal, and two teachers from TWGHs Kwok Yat Wai College, the workshop provided valuable insights into leveraging technology to enhance teaching and learning. Following this, Mr. Hon, a social worker, held a workshop on education, information, media, and AI literacy, further expanding our understanding of the role of technology in education.

In the afternoon, Educational Psychologist Ms. Chan delivered a thought-provoking talk on 'How to Effectively Support Students with Emotional and Behavioral Difficulties.' Her presentation offered practical strategies and guidance for teachers to address the unique needs of students facing these challenges.

The Staff Development Day provided our teachers with opportunities to learn, collaborate, and reflect on their practices. We believe that the knowledge and skills gained during this event will have a positive impact on our students' educational experiences.

Teacher Interview – Mr. Kung Sui Hang

As we bid farewell to Mr. Kung Sui Hang, a dedicated Design and Technology teacher who has served at YLPSS for 24 years, we deeply appreciate his significant contributions to the school. Mr. Kung is particularly pleased that the subject he teaches continues to be offered, especially as many schools have phased it out. Over the years, he has witnessed significant changes in the classroom dynamic. Before 2003, only boys took the subject. Nowadays, both boys and girls have the opportunity to engage in hands-on learning. Mr. Kung believes that Design and Technology is essential for young people, equipping them with practical skills in areas such as do-it-yourself (DIY), creativity, and handicrafts.

Mr. Kung's teaching journey has been filled with unforgettable experiences, such as school suspension during the SARS outbreak and the COVID-19 pandemic. During COVID-19, he adapted by conducting Zoom lessons and shifting the focus to technical drawing. He often emphasizes self-learning and continuous development for both students and teachers. After his retirement, Mr. Kung looks forward to relaxing and renovating his apartment himself.

同學感言

我最有印象的部分是新中國成立的時候，那情景讓我感動不已，也不禁感歎，原來祖國從成立到現在已經七十五年了，從一個落後的國家發展起來，這當中的艱苦是中國人民經歷的。在中國人民的共同努力下，苦盡甘來才有現在這麼好的生活條件。我由衷希望祖國能永遠繁榮，長長久久地富強起來！

參觀展覽後，我最有印象的是 C919 及 ARJ21 的部分。因為之前的民航客機是由其他國家所研製的，但這兩個型號是由國家自主研製的，所以我感到很自豪。

參觀展覽後，我最有印象是國家隊運動員——許海峰。他於二十三屆洛杉磯奧運會上奪得中國歷史上第一枚奧運金牌。這枚奧運金牌很有價值。
